11/15/2011

To Whom It May Concern,

We began implementing IMS in our office in April of 2011. This transition was made exceptionally easy with the help of 1<sup>st</sup> Providers Choice support staff. 1<sup>st</sup> Providers Choice support staff was quick to respond to all of our support needs during implementation and with any of our current support needs. We were uncertain and a little skeptical about bringing the billing in house because I had never done billing before. Our office was able to billing in house during this time of implementing IMS and our revenue is up and our turn around time is quicker than ever before. We are happy that we decided to go with 1<sup>st</sup> Providers Choice and made the transition to utilizing IMS for Podiatry.

Respectfully,  
Christine Woodson  
Office Manager
